

People with Down's Syndrome

Looking after your eyes

Version 1 - March 2011

SeeAbility Easy Read Factsheet

Lots of people with Down's Syndrome will need to wear glasses.

This factsheet will give people with Down's Syndrome information about eye care.

You should have an eye test every 2 years.

An optometrist or optician will give you an eye test. We will call them an optician in this factsheet.

Your doctor or optician will tell you if you need your eyes tested more often

Everyone can have their eyes checked.

Having your eyes checked is called an eye examination, eye test or sight test. We will call it an eye test in this factsheet.

You don't need to read or write to have an eye test.

An eye test can find out if your eyes are healthy.

The optician will check for illnesses like diabetes.

They will also check your eyesight and tell you if you need new glasses.

You may have problems seeing things close to you, or seeing things far away.

The optician will measure your face to check your new glasses fit okay.

It is important that your glasses feel comfortable.

Your glasses should rest on your nose and fit well over your ears.

If you wear a hearing aid make sure that your glasses fit comfortably over your ear and hearing aid.

Make sure you can see through the clear lens of your glasses.

If you can see the frame it may be that your glasses do not fit properly.

There are different types of glasses to choose from.

You may need 2 pairs of glasses. One pair for seeing things close to you, and one pair for seeing things further away.

Bi-focals or vari-focals are glasses that have special lenses.

The lenses will help you see further away and close to you.

You can get glasses that help you see clearly that are also sunglasses.

Some glasses have lenses that go dark when the sun is out.

Your optician can help you look after your glasses.

You can take your glasses back to your optician if they are uncomfortable or you need to get them fixed.

They often do small repairs for free.

See our factsheets about eye care and glasses.

You can find them on our website.
