

Supporting mathematical abilities in Down syndrome

We want to know your views on the mathematical strengths and difficulties for children with Down syndrome. As well as the strategies and resources used to support maths learning at school and home

We are looking for parents of a child with Down syndrome aged between 5 - 11 years

If you would like to take part or would like more information, please contact Erica Ranzato or Unta Taiwo

e.ranzato@ucl.ac.uk | unta.taiwo.14@ucl.ac.uk
