Zoom workshop about Dementia and Assistive Technologies

 **Roser**  **Sofia**	Hello, we are Roser & Sofia.
CARDIFF UNIVERSITY PRIFYSGOL CAERDYDD	We are researchers at Cardiff University.
 **Julian**	We are working with Julian from the Down's Syndrome Association.

What do we want to do?

We want to learn more about dementia and technology.

Who do we want to talk to?

We would like to ask some questions of people who have Down's syndrome who are affected by dementia.

What will we do?

We want to invite a small group of people living with dementia and their carers to talk to us on zoom about their experiences of using technology.

Why is technology important?

Technology can help us. It may keep us safe and connected.

	**But technology can be frustrating.** There are lots of devices and apps. Some are expensive. Some are hard to use.
	**What will happen in the zoom workshop?** We will meet on Zoom where we will ask you about technologies that you like and don't like.
amazon	**As a thank you for your time.** We will provide a £50 thank you voucher as a thank you for your time.
	**How can you join?** Please email Julian at julian.hallett@downs-syndrome.org.uk
	**What will happen next?** We will send you a link and you can select suitable dates and times when you are free. We will pick a date and time that everyone can do and email you the Zoom link.

	Thank you for taking time to read this document.
